

## BLUE SKY MEADOW

April 3, 2012

Ellie (and everyone else)

Blue Sky Meadow OSS

P.O. Box 2860

Big Bear City, CA 92314

Dear Ellie,

I really miss you guys; I wish I could've stayed longer. I want to thank you for taking us everywhere you could. I also want to thank Krys for teaching us those new dance moves. And especially Kathleen for doing all the paperwork just for us to go to outdoor science school. I really loved the food; it was awesome. Tell the chefs that I said, "thank you." The thing I loved the most was hiking at the top of the mountain and eating lunch.

There was a big open wide view. It was so beautiful. I had fun the whole week; even though we had one less day, we still had the best time of our lives. I also had fun on the skit night; I had fun on all the activities. Especially the solo hike, with all the stars that we saw that night. There were so many important stars that we learned about.

Thanks for teaching us all those things that we never heard about before. Like that camouflage game. That was the best game I ever played before, better than tag and all that other good stuff. Well, anyways, thank you for everything you did for us.

Sincerely,

Andrew Cuevas
