Outdoor Science camp

P.O Box 2860

Big Bear City, CA 92314

Dear Ellie (and other OSS staff),

I really enjoyed my time at Outdoor Science School. I liked that I got to share a cabin with my friends. It felt like our own little apartment. Thank you for making my week there exciting

I'm glad that for a week, Mr. Fraser wasn't our teacher and bugging us like he always does. It was nice to get a break for a week. I know that seems harsh, but it's just easier staying away from him when he's nice and calm then being around him when he's cranky and yelling.

One thing I liked was the food. Oh my gosh it was so delicious, especially the potatoes and the bread sticks were amazing. I wish they serve it at my school. Maybe my school would get more money. Could you ask Juan and Esteban if they could come work here?

I really like meeting the DuArte kids. I even meet one that looked like my best friend. I made a lot of new friends. But, they were really hyper and they were always screaming really LOUD. It got annoying and happened at the most random time, but they were really fun to hang out with.

Sincerely,

Alisha

PS Tell Kry's I'm sorry about what I did to your lizard and tell her she's really pretty
