Dear Cisco and the OSS Staff,

I had a lot of fun at OSS, and most of it was because Cisco made it happen. So, I would like to thank him for showing us a fun time and being so nice to us.

My favorite thing that we did at OSS was the night hike, because we learned so many things and we tried something new. The things that I liked that we tried were the Lifesaver mints in the dark. It was really cool, because it would glow in the dark every time we bit into it. My favorite thing that we learned at the night hike is the story of the god Orion. It was interesting how he was able to swim to the shore without his eyes.

The solo hike was really fun, but at the same time it was really creepy. I went with a partner, her name was Brianna, too. We heard some noises in the trees that sounded really creepy, but we didn't get scared. But when we got back to Cisco and the other kids in the group, they told us there was a coyote hiding in the trees watching us pass by. That was really creepy to hear, considering the coyote was stalking us.

Skit night was really fun, and kinda embarrassing, since we had to act it out in front of everyone at OSS. But turned out to be really fun acting it out up there. The other girls in the cabin and I did a skit on the food web. We did a game show and answered trivia questions about our topic. Some of the skits on skit night were really funny and interesting.

Dance night was kinda fun, although my friends made me dance. But with all of the dances the people were coming up with, it made me laugh a lot. That was the fun part about dance night. But the most embarrassing dance to do was "Thriller" by Michael Jackson. But the best part was seeing the cabin leaders dance. I will never forget that day at OSS.

The songs that we sang every morning were really fun to sing. Although, the more we sang them, the more annoying they got. But every time we sang the song "Scat", me and my friends would start laughing, because we thought that song was funny. Now, we sang them so much, I can't get them out of my head!

Now, I think that OSS was the best and the most fun event that has happened in my life. But, it's all because of Mrs. Galaske, Ms. Kathleen, and Mr. Fraser that we made it there. I had a lot of fun with my friends, I also got to meet a lot of new people from Duarte, and that was really cool. Thank you very much Cisco for showing us a good time of the week of OSS.

Sincerely,

Brianna Herrera
