Dear Robert,

Sorry for the delay on this letter. My name is Jared. There was a mixup in who got who for the letter. Well thanks for sending me the letter! I live 17.5 miles southeast of LA. We looked you guys up on the map I saw some major different things in our cities. The streets looked very different; they look very busy.

In the letter you wrote to me, you asked me if I played any sports. Well, I do. I play basketball. The positions I play are small forward and point guard. I also play football. I play cornerback. My favorite sport is soccer, though. I have been playing soccer since I was 4. I usually play all positions.

I have one sister who is two years younger than me. I have a dad and a mom. I don't know if you have heard this book series called **Guys Read**. The series is about different topics. I am reading the **Sports Pages** book of **Guys Read**. It is about a lot of authors who write usually about their life and sports. I really recommend it.

My favorite subject in school is math. Do you like math? I like math because it makes me work for the answer.

I would like to ask you a few questions. What do you like to do in your free time? I like to play soccer. Last question: what is your favorite subject in school?

Sincerely,

Jared Sandoval
