Dear Cisco,

Thank you for giving me an adventure of a lifetime. I especially liked the night hike. It was so mysterious at night. I couldn't see but it was awesome. As a result, I'm going to let my kids go to Outdoor Science School when I'm older.

How are you doing, Cisco? It's been two weeks since we left Science School. Ever since then, I've want to go back so badly. It was cool meeting you, Ellie, Dexter, and everyone else. Hope you don't get sick over there. I mean, I had so much fun that I got sick when I got back.

Does the camp have any new arrivers yet? It must be pretty exciting to meet new students and teachers nearly every week or month. If I ever do go back to Big Bear, I'll go visit you. It'll be nice to go in summer or spring.

I have four more questions to ask you. In Virginia, are there a lot of animals? Did you ever play hockey? What types of trees are growing, now that it's spring? Finally, have you been to Disneyland?

Sincerely yours,

Moises Resendis

P.S. What hour is it? It's not *Adventure Time*, it's *Happy Hour*! =D
